

Spring: Week 4 : Composition of 4 Activities at Home

- Play with familiar objects at home such as teddies/lego. Count out 4 and share them in different ways. 'You have 3 teddies and I have 1 teddy!' Can we make 4 in another way? You have 2 teddies and I have 2 teddies. Do we still have 4 altogether?
- Arrange cutlery in different ways. Let your child count out 4 spoons. Then see how 4 spoons can be moved in different ways- 4 and 0, 3 and 1, 2 and 2 etc.
- Build towers of 4 using 2 coloured bricks. Discuss the way the tower has been made. 'Your tower has 3 green bricks and 1 blue brick. 3 and 1 make 4. My tower has 4 green bricks and 0 blue bricks. 4 and 0 make 4.'

- Set up a 'sports day' game with beanbags and hoops or balls and buckets. Children to have 4 balls and will try to throw them in a bucket. This also works well with pillows/cushions and a target on a sofa/bed. See how many balls/pillows/cushions reach the target and how many do not. 'You got 3 in the bucket and 1 outside the bucket.'
- Dominoes - spot the dominoes with 4 dots on them and discuss the way it makes 4. There are 2 on this side and 2 on this side. There is 1 on this side and 3 on this side.
