Reference: British Science Week

13/02/2026

Dear Parents and Carers,

We are delighted to let you know that our school will be celebrating British Science Week from Monday 9th March to Friday 13th March.

This year's theme is "Curiosity: What's Your Question?", encouraging children to explore the world with wonder, enthusiasm and lots of inquisitive thinking.

Throughout the week, EYFS, KS1 and KS2 will each have a dedicated day off timetable to enjoy a full day of exciting science learning. Each year group has chosen a story to inspire their investigations, allowing us to build on the momentum of World Book Week the week before. It also links beautifully with the National Year of Reading – Go All In!, helping children see how reading can spark ideas, questions and scientific thinking.

During their science day, children will take part in hands-on investigations, ask questions, make predictions, test ideas and work together like real scientists.

Each class will also create a 'Question Space' — a special area where children can write down scientific questions that spark their curiosity. Throughout the week, classes will explore these questions together and try to uncover the answers.

We are really looking forward to a fun, inspiring and curiosity-filled week of learning. We can't wait to see the children's enthusiasm as they explore, experiment and let their curiosity lead the way. Thank you for your continued support.

Kind regards,

Mrs Richardson
Science Lead
